Is it an emergency? Spinner game.

ontario.ca/BePrepared

Instructions

- **Print a copy of *Is it an Emergency? Spinner Game*.**
- **Take a paper clip and straighten one end.**
- **Position looped end of paper clip in centre of spinner and hold there with the tip of a pencil. Flick the straight end of the paper clip to spin.**
- **Divide into two teams. Flip a coin to establish which team will have the first spin.**
- **At each turn, one team member must spin the paper clip. When it lands on a picture, the team member must identify the situation as being an emergency or a non-emergency and then must explain their answer.**
- **Example: The spinner lands on a picture of a fire. It is an emergency because it is likely to cause damage to property and put people in danger.**
- **If a player lands on the same section twice, they should spin again until they land on a different section.**
- **Score 1 point for identifying the situation correctly and 1 point for a correct explanation. First team to 10 wins!**

Emergency preparedness kit card game

For 2 to 6 Players

Object: To collect the most pairs of cards by the end of the game.

Set up: Each card has the picture of an item that belongs in an emergency preparedness kit or a pet emergency preparedness kit.

Print two or more copies of the emergency preparedness kit cards. Cut along the dotted lines and mix them, face down.

Deal each player 5 cards and place the remaining cards face down in a draw pile.

Playing: Player 1 to the left of the dealer begins by asking any other player for a card matching one they already hold in their hand. If the player they asked has that card, they must give it to player 1.

Player 1 then takes the matching card from their hand and puts both cards face up in front of them. They now take another turn, asking any player for any other card that they have in their hand.

They continue to do so as long as they get the card they asked for from any player.

When a player does NOT have the card asked for, player 1 must take the card on top of the draw pile.

If it is the card they were looking for, player 1 will lay down the pair and pick up two new cards from the draw pile. If it does not match, they must keep the card in their hand.

The player to the left of player 1 now takes their turn and the game continues as above, in a clockwise direction.

Ending and winning the game: When there are no more cards left in the draw deck, players continue to ask for cards until one player is out of cards. Each player now counts how many pairs of cards they matched. The player with the most pairs wins.
